

STAMFORD

Welcome to the Stamford Endowed Schools' Digital Archive

The Archive contains Books; Publications including 'The Stamfordian' and the 'SHS' Magazines and Photographs including access to The SES Foundation Photo Albums.

The Stamfordian and SHS School Magazines include news, games reports, features, prose and verse dating from 1880s to the present day. It is a valuable resource, providing fascinating information about pupils, staff and school life.

Each magazine has been digitally reproduced and each article extracted to provide a comprehensive search facility that enables the user to locate items of interest contained within a specific magazine or across the whole archive. In addition, each article is categorised to enable quick-link searches to be placed over the system

The results are returned in a tabular format with the ability to select a title and view either the whole magazine or just the article as a pdf.

Access to this resource is limited and currently only available to staff and pupils of the Schools and to benefactors who have so generously donated to the Schools. We would please ask that you do not share your login details and please do not share any content without permission from the SES Foundation.

Alternatively, the user may view the magazines as a whole PDF and scroll through using the page navigation option or the embedded bookmarks. It is recommended that the system is viewed in Internet Explorer 9 or above, or the equivalent.

The user will require a pdf viewer to open the pdf files. These viewers may be obtained free of charge directly from www.adobe.com.

Search All

The 'Search All' option provides the user with a 'Text' field search option.

Enter the required 'text' criteria into the 'Search' text field. For this example we have used 'harrison'. Select the 'Search' button, and the results will be displayed in a tabular results screen.

The screenshot shows a search results page with the following content:

Search Example

Using the 'Advanced Search' option the following example will show how the results can be defined to help reduce the amount of results in any search criteria.

The search criterion is 'Cooper'.

By selecting the 'Stamfordian Articles' and entering 'Cooper' in the 'Text' field option, the system returns 120 results.

However, we know that he was at school between 1920 and 1930, so by adding the range of years to the 'Year From/To' option and selecting 'search' the results has been reduced to 60.
